

BEAR SNORES ON

Barkley selected Bear Snores On by Karma Wilson as the children's book of the month! Read about how Bear's cave fills with animal friends as he sleeps. Below are activities you can do with your children that meet Florida Early Learning and Development Standards.

Activity #1

Make a cave out of blankets and pretend to be the bear. You could ask your child, "What would you want with you if you lived in a cave?"

Language and Literacy

IV.C.2a uses increased vocabulary to describe objects, actions, and events (expressive).

Activity #2

Draw a graph and have your child use sugar-free gummy bears to count, match, and describe the color of each bear. Guide them along the way to encourage them.

Mathematical Thinking

V.A.2. Number Sense (begins to count)

Activity #3

Combine food coloring and water and pour them into an ice tray. Place a popsicle stick in each square and freeze it.

When it's frozen, take the cubes out and let your child explore painting a pumpkin with ice.

Scientific Inquiry

VI.A.2.a Responds in varied ways to people and objects and manipulates objects in a purposeful way.
