

# How the Florida VPK Readiness Rate Is Calculated . . .

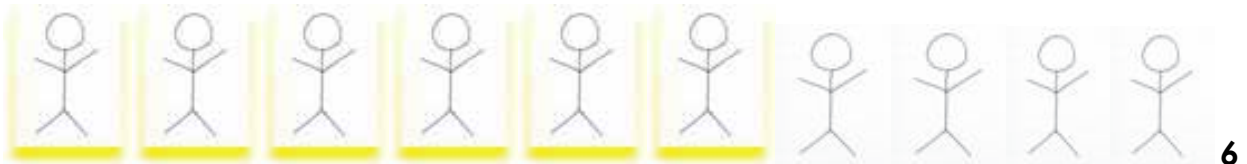

\* Rajan Playschool is a fictitious child care provider that is used to illustrate how the VPK Readiness Rate is calculated.

students enrolled in Rajan Playschool VPK program

students attended 70% of the VPK program at Rajan Playschool

students from Rajan Playschool VPK program who scored ready on FAIR and ECHOS

- Preschool: Rajan Playschool
- Number of VPK Students enrolled: 10
- Number of students attending at least 70% of the program: 8
- Number of students who scored ready on ECHOS & FAIR (both): 6
- Percent of children ready for Kindergarten at Rajan Playschool:  $6 \text{ divided by } 8 = 75\%$   
(# of students scoring ready on both tests divided by # of students who completed 70% of the program)
- Rajan Playschool Readiness Rate = 75%
